Thus, we have learnt about significanced of planets, all the houses of horoscope, the various significators for the various houses. For accurate analysis of a horoscope, we should know as to how the strength of various planets are to be evaluated. First of all we should see the strength of a planet in the Birth Chart and then evaluate its strength in the concerned divisional chart. If planet is strong, it will give good results related to its signification and signification of the House Lord. If the planet is weak, it will not be able to deliver good results related to its signification and the signification of the house of which it is the lord.

A planet is said to be strong if it is in its sign of exaltation, mooltrikonsign, own sign, in the sign of friends, owner of a benefic house, conjoined or aspected by the natural benefic planets or if it is Vargottam. A planet is said to be weak if it is posited in the sign of enemy planet, in its sign of conjoined debilitation, combust, lordship of 6th, 8th house or 12th house, placed in 6th, 8th or 12th house, or aspected, conjoined by malefic planets, in Rashi Sandhi.

2. How to Interpret a Horoscope

The interpretation of the Horoscope involves manifold analysis of different houses of the birth chart. This process consists of many steps. To simplify, it can be divided in the following steps.

1. General assessment of the birth chart by evaluating the strength of Lagna, Sun and Moon.
2. Evaluation of Kendras and Trikonas.
3. Check the position of the dispositor of different House Lords.
4. Check the inter-relations among houses and their lord planets.
5. Finally, check the dasha pattern of the birth chart in operation. This will help in identifying the timing of events.

Personality of the native depends upon the Lagna Lord and influences of the other planet on Lagna and Lagna lord of the birth chart. The Moon represents the mind of the native. Influence on the Moon of the other planets with conjunction or aspect affect the temperament of the native according to the signification of the planet conjoined with or aspecting the Moon. If Lagna lord is afflicted or ill placed in the horoscope, it puts its adverse affect on the health of the native. Affliction of the Moon and its ill placement the mental disposition of the native disturbed. The Sun represents the soul affliction its ill placement results in overall decline in achieving status in life.

Importance of Kendras and Trikonas

Assessment of Kendras and Trikonas in a horoscope is very important. If the Kendras and Trikonas are occupied by benefic planets, it gives special strength to the horoscope. Trikonas are also very important, the 5th and 9th houses are known as Trikonas or trines since 5th house is the house of accumulated goods or bad of Karmas of previous birth and 9th house is the house of religious deeds. The influence of Tikonas on house lord is protective shield for the native; their influence on any house or house lord through conjunction or aspect protects the signification of the concerned house or signification of the house lord planets.

Assessment of an Individual Horoscope

For interpretation of an individual horoscope, we should concentrate on assessment of strength and weakness of different houses of the same. The strength or weakness of any house of the horoscope will indicate the results associated with that particular house. We, while analysing the results of any particular house, should carefully check the influences of another planets on the house and house lord.

An house or house lord is influenced by other planets by way of:

1. Placement: A planet posited in another house will have relations with that house due to placement and will influence the house in which it is posited.
2. Aspect: A planet aspecting a house or House Lord will have relations with the house of which it is the lord and the house it is aspecting.

3. Conjunction: When lords of two houses are placed with each other, a relation is established between them in the house of horoscope in which they are posited and they give results according to their lordship and their natural significations.

To judge the promise and nature of results, we should check the following factors.

1. The concerned house, for example, we want to judge the promise of children in a horoscope, we should check the 5th house of the horoscope first, i.e. influence of different planets on 5th house by conjunction, aspect or exchange among planets.

2. Secondly, we should check the position of lord of the concerned house. In case of children, the position of the lord of 5th house is to be checked, such as its placement, and influence of other planets on 5th lord due to conjunction, aspect and exchange.

3. Thirdly, we should check the position of the significator of the concerned event whereas for children, we should check the position of Jupiter which is the significator of the children. We should check the influence of other planets on Jupiter.

4. We should also check the concerned house from the significator. For children the 5th house from Jupiter may also be checked and influences of other planets on this house is also to be assessed.

If the house, house lord, the significator and concerned house from the significator are under the influence of benefic planets, the native will have good results pertaining to the house in question and if the house, house lord, the significator and if the concerned house from the significator is influenced by malefic planets, natural or functional, the native will not be able to obtain good results of the concerned house, rather he will be receiving bad results concerning to that house signification. We may also consider the dispositor of the house lord. It also helps in assessing the results of the concerned house.

The position of the house lord in the concerned divisional chart is of equal importance. We should also assess the strength of the planet in the concerned house. For example, if we are evaluating the promise of children, we should check the strength of 5th lord in the Saptamsh Chart, and position of Lagna lord of Saptamsh.

A thorough study of houses, house lords, the significators, the concerned houses from the significators, the position of lord of the concerned house in divisional chart and Lagna lords of concerned divisional chart in the divisional chart will indicate whether the results pertaining to the house, will be negative or positive and extent to which it will be positive or negative.

Timing of Events: The Horoscope and concerned divisional charts only indicate the promise in the horoscope, negative or positive, according to the position of house, house lord, significator, concerned house from the significator. But the time of fructification of event is indicated by the Dasha/Anterdasha of different planets. The native gets in his life results according to the dasha operative at that time. If a good dasha is in operation, the native will get good results according to the significations of the concerned dasha nath and its lordship in the horoscope. For determining the timing of events for various events such as education, profession,

marriage, children, acquiring of vehicle, land and property, foreign travels, we will discuss each subject in detail in different chapters. We will not only give the principles to identify the timing of events but will make our sincere efforts to make the principles clear with the help of illustrations / examples.

3. Dasha Analysis

Dasha Of The Planet Indicates The Timing of Events

A Dasha Lord gives results according to its lordship and results of planets influencing dasha lord by conjunction, aspect and placement. The dashanath will give results of the house occupied by it and its lordship.

Aspect: The dashanath will also give the results of the planet aspecting it according to the natural signification of the planet and its signification of lordship of the particular house.

Conjunction: If Dashanath is conjoined with a planet, it will also give result of natural signification of the conjoined planet and its signification due to lordship of a particular house in the horoscope.

The planets give results according to the lordship in a horoscope. We will be describing the general results given by the lords of the 12 houses of the horoscope.

1. In the dasha of Lagnesh Bodily comforts, wealth, and general happiness is given by the planet even if it is a natural malefic planet. It is the dasha of rise.
2. In the dasha of Dhanesh, the second lord, the dashanath gives wealth, status but it also gives trouble in health since it is in a Marak house. In my experience, dashanath of 2nd lord is not good for wife/life partner since it is in 8th house from the 7th house.
3. In dasha of 3rd lord, birth younger brother/sister takes place, it tells short journey, and causes problem in health as 3rd house is 8th from 8th house.
4. The dasha of the 4th lord, Sukhesh gives vehicle, house, property, general happiness, ministerial post in case of politicians etc. It gives trouble to father since 4th house is 8th from 9th house the house of father.
5. The dasha of 5th lord is very beneficial since 5th house is the Trikona sthan. It generally gives education, gain of wealth and dignity. It also blesses with the children but it is not good for mother since it is second house from the house of mother, the 4th house.
6. In the dasha of 6th house it causes diseases, fear from enemy, accidents, litigation and trouble to children. I have seen this dasha is good for profession since 6th house is 9th from Karma Bhava.
7. In the dasha of 7th lord body trouble, marriage etc. are possible. It also gives high position and repute in the public since it is the alternative house of profession being 10th house from the 10th house.
8. The dasha of 8th house generally gives inauspicious results, it gives body trouble, fear of death. The death of wife, it gives disgrace and brings major changes in the life pattern of the native.
9. The dasha of 9th lord is quite beneficial for the native. During the dasha of 9th lord native rises due to luck, respect, religious journey, foreign travel gain from the government. Rise through education is also expected.

10. In the dasha of 10th lord, help from government, gain of wealth, increase in fame, rise in profession etc. are possible. But this dasha is not good for the mother since 11th house is 7th from the house of mother.

11. In the dasha of 11th lord Labhesh, gain in income is possible due to possible the strength of the house. Generally, this dasha is good for wealth/income etc. but it also causes disease since 11th house is 6th from the 6th house.

12. In the dasha of the 12th lord, loss of wealth, bodily trouble etc. are caused. It also gives bed pleasures and foreign travels.

The dashanath / anterdashanath gives results according to its strength in the birth chart, navamsh and concerned divisional charts.

This dashanath/anterdashanath gives good results in the following conditions.

- 1.** If the planet is the lord of an auspicious house i.e. Kendra or Trikona.
- 2.** It is posted in Kendras or Trikona.
- 3.** It is in a sign of exaltation own sign, Moolatrikona sign or in friendly sign.
- 4.** It is conjoined with or aspected by the benefic planets.
- 5.** It is Vargottama.
- 6.** It is having directional strength.

The dashanath/anterdashanath gives unsuspicious or bad results in the following conditions :

- 1.** The planet is the lord of 6th, 8th or 12th house.
- 2.** It is posited in 6th, 8th, or 12th house.
- 3.** It is in a debilitated sign, inimical sign, combust or in Rashi Gandant.
- 4.** If it is conjoined with or aspected by malefic planets.
- 5.** It is weak in navamsh or in the concerned divisional chart.

Till now we have learned the signification of the planets, signification of houses, how to interpret the horoscope, how to do interpretation of dasha. Now it is time to learn in details how to determine the timing of events for educational achievements, rise in profession, timing of marriage, birth of children, timing of getting vehicles/land property and timing for foreign travels. We will discuss these matters in details in the coming chapters separately since now we have got sufficient knowledge of the basic principles of astrology.

4. Importance of Transit of Planets

Planets in the zodiac always keep moving in the zodiac according to their speed and enter from one sign to another. In the sign in which planets remain at the time of Birth is known as their natal position, which is the base of Birth chart. When they move from one sign to another other than the Birth time, it is known as TRANSIT of planets. Transit of planets is very important to know good or bad results to the native for the present time.

The results of Transit should be considered through the natal position of Moon in the Birth chart. Transit of Moon will indicate the results for the day, transit of the Sun indicates results for the month, transit of Jupiter indicates results for the year

and transit of Saturn indicates how will be 2 years and 6 months for the native. The transit of planets should be studied in correlation of the dasha of the planets in operation.

Principle of Transit and Dasha

1. If the dasha of the planet is indicating good results and transit of the planets is also indicating good results, the native will obtain very good results pertaining to the house, house lord of dashanath and house in which planet is transiting.
2. If dasha is indicating bad results and transit of planet is also indicating bad results or dasha is indicating bad results and transit is indicating good results, the native will have mixed results good and bad both.
3. If dasha is indicating bad results and transit of planet is also indicating bad results, the period will be very bad and native will get inauspicious results pertaining to house, house lord of the dashanath and of the house in which the planet is transiting.

Now we will discuss the results of transit of different planets in different houses from the natal Moon. It is not possible to describe results of each planets in detail in this chapter, however I am describing below the brief results of transit of all the nine planets in different places/houses of the horoscope through the position of natal Moon in the tabular form.

Planet	Transiting House From Natal Moon	Results in Brief
Sun	1,2,5,8,9 and 12	In these houses the Sun gives bad results, no efforts of the native will succeed, may suffer from eye trouble. Here Sun gives maximum malefic results. The native will have excess expenditure, many diseases, defeat in lawsuits.
	3,6,10,11	Here Sun gives very auspicious results, such as good health, income, gain, promotion, new job
Moon	2,4.,5 and 9 & 12th	Moon gives bad results such as sorrows, miseries, loss of reputation, unwanted expenditure, obstruction in efforts.
	8th	Here Moon gives maximum malefic results such as mental agony, trouble to mother
	1,3,6,7,10 and 11th	Here Moon bestows very good results such as increase in facilities, income etc
Mars	1 ,2,4,5,8,9, 10, 12th	Here Mars gives bad results, such as sorrows, miseries and diseases etc
	7th	Here Mars gives maximum malefic results, such as quarrel, litigation, loss, diseases
	3,6 and 11	Good results. Happiness, comforts, gain etc.
Mercury	1 3,4,5,7,9 and 12th	Difficulties, heavy expenditure, diseases of skin, nerves etc.
	2nd	Maximum bad results, obstruction in all spheres, loss of wealth.
	6,8, 10 and 11th	Very good results, such as good health, overall

		happiness, education, income etc
Jupiter	1, 4th and 10th	Bad results, fear, worries, loss of status, bad health, heavy expenditure etc.
	3rd & 6th	Maximum bad results such as loss of respect, humiliation, enmity etc.
	2,5,7, 9 and 11th	Good results, such as good health, comforts, progress in business, travels, gain of jewelry etc.
Venus	7th and 10th	Bad results such as sorrows, heavy expenditure, loss of comforts, lack of sex, bad health of wife.
	6th	Maximum malefic results, sexual diseases. Loans, humiliation from women etc.
	1,2,3,4,5,9,11,12th	Easy life, good health, sex pleasures, increase in income, benefits from female, gain .in business etc.
Saturn	1,2,4,5,7,8,10th & 12th	Malefic results in different ways, excess expenditure, loans etc.
	3,6,9 and 11th	Good results such as gains, comforts, gain of money, promotion, success in efforts.
Rahu/Ketu	1,2,4,5,7,8,10th & 12th	Malefic Results such as miseries, sorrow, agony, downfall, over expenditure etc
	9th	Maximum malefic results, misfortunes, diseases etc.
	3,6,and 11th	Good results such as good health, success in efforts, gains, comforts, progress in profession, all round prosperity etc.

These are the results given brief. These good or bad results will change if there is Vedha due to placement of some another planet at certain places.

Vedha places of various planets are described below :

Planet	Benefic Places	Vedha Places	Remarks
Sun	3,6,10,11	9,12,4,5	No Vedha by Saturn
Moon	1,3,6,7,10,11	5,9,12,2,4,8	No Vedha by Mercury
Mars	3,6,11	12,9,5	
Mercury	2,4,6,8,10,11	5,3,9,1,8,12	No Vedha by Moon
Jupiter	2,5,7,9,11	12,4,3,10,8	
Venus	1,2,3,4,5,8,9,11,12	8,7,1,10,9,5,11,3,6	No Vedha by Sun
Saturn	3,6,11	12,9,5	No Vedha by Sun
Rahu / Ketu	3,6,11	12,9,5	

Explanation: Sun gives benefic results in the 3rd from Moon sign. At the same time any other planet, suppose Jupiter is in 9th from Moon, the benefic results to be given by the sun get cancelled by the presence of Jupiter in 9th from Moon. In case Saturn is placed at 9th place, instead of Jupiter, the good results of sun will not get cancelled as there are no Vedha between Sun and Saturn.

On the other hand, if the transiting planet in malefic places but there is Vedha due to placement of another planet, the malefic results will be cancelled.

5. Importance of Divisional Charts

The path of the planets is called zodiac. It is divided into 12 parts and each part is known as one sign. Every sign is equal to 30 degrees. Divisional chart is made by dividing the sign into parts, or divisions, therefore it is called Divisional Chart. For example, if we are making Navamsha chart, a sign is divided into 9 parts, each part consisting of 3°-20'. The Divisional Charts are prepared by taking into consideration the natal degree of Lagna and different planets of the natal chart.

For detailed studies, the Divisional Charts are required to be studied. The Divisional Charts are subsidiary charts to natal chart and should not be read independently for analysis of the events. It should be read in co-relation with Birth Chart. For example, if we want to study the matter related to progeny, we should read Saptansh Chart D-7 in co-relation of Birth chart D-1. Divisional chart should also be studied to evaluate the strength of natal planet.

The Divisional chart should be studied in the same manner as Rashi Chart. While studying the Divisional Chart importance should be given to the Lagna and Lagna lord of Divisional chart and concerned house and its lord of the Divisional Chart. For example, if we are studying matter relating to progeny, we should study :

1. Position of 5th lord in Saptansh Chart.
2. Position of Lagna lord of Saptansh and Lagna of Saptansh.
3. 5th house of Saptansh and position of 5th lord of Saptansh.
4. Position of Jupiter, the significator of progeny, in the Saptansh Chart.

The prediction can be given if same position is indicated by Birth Chart and concerned Divisional Chart. For example, the 5th lord of D-1 is in 6,8 or 12th house and Lagna lord of Saptansh or 5th lord of Saptansh is also placed in 6,8 or 12th house, we can easily predict that the possibility of children will be very lean. In other case, if 5th lord of D 1 and 5th lord of Saptansh both are placed in auspicious houses and well aspected, possibility of children will be very high.

The Divisional Charts are studied for analysing the particular event in co-relation with Birth Chart.

Divisional charts commonly used for specific events.

Name of divisional chart	Specific purpose of studies.
Hora D-2	Wealth.
Dreshkana D-3	Younger brother/sister, courage and initiative.
Chaturmasa D-4	Land and property, vehicles, comforts.

Asthamsa D-8	Longevity.
Navmasa D-9	To check general strength of planets, marriage.

6. Timing of Achievements in Educational Accomplishments

In modern age, the educational pursuits have been diversified. In this Chapter, we will throw light on astrological analysis of the educational pursuits of the native. The second and fourth houses signifies the school education/general education and 5th house signify the higher education/professional education. Now a days, there is a great demand of the persons who have higher education/professional education. If 2nd house, its lord and 4th house and 4th lord are strong and well placed in the horoscope, the native may have good education. If these house or house lord are ill placed, weak and afflicted, the native may not be able to attain good education. For higher education/professional education we have to evaluate 5th house, 5th lord and Mercury, the significator of higher education and intellect. The horoscope will indicate the level of education the native can achieve. However, timing of achieving higher education/professional education can be determined with the help of ***Dasha and Transit of Planets***.

For determining the timing, following parameters should be assessed. In dasha of following planets, the native may achieve success in the higher education / professional education.

Dasha Parameters

1. The dasha of 5th Lord.
2. The Dasha of dispositor of 5th lord.
3. The Dasha of Lagna lord of Chaturvimshamsha.
4. Dasha of Mercury, the significator of education and lord of 5th house from Mercury.
5. Dasha of planet placed in 5th house, aspecting 5th house, conjoined with 5th lord or aspecting 5th lord.
6. Dasha of 5th lord from Mercury/Moon, planet posited in 5th house from Moon/Mercury.

Transit Parameters.

During dasha of planets mentioned above, the Saturn and Jupiter will make contact in two conditions out of the four mentioned below through conjunction or aspect.

1. 5th house, 5th lord, 9th house, 9th lord from Lagna or Moon. If dasha parameters and transit meters set above are fulfilled, the native will be successful in achieving success in higher education/professional education during the dasha of planets mentioned under dasha parameters.

This is the Horoscope of a young girl who after passing her Sr. Secondary Examination, passed three entrance examinations for higher education during the period 5-07-2002 to 2-08-2002. She qualified for the B.B.S. of Delhi University, BJMC of I.P. University, Degree in Foreign Language of Delhi University. During the period 5-07-2002 to 2-08-2002, she was running under dasha of Jupiter, Anterdasha of Mars and Pratyanter dasha of Moon. Now we will see as to how the parameters set under dasha are applicable in this case.

The Dashanath Jupiter is aspecting Moon, the 5th lord. Anterdashanath Mars is aspecting 5th house, the Pratyanter Dashanath Moon is itself 5th lord. All M.D. Lord, AD Lord and PD Lord are among the planets mentioned under Dasha parameters.

In transit during above-mentioned period, Saturn was transiting in Gemini, it was conjoined with 5th lord and Jupiter was transiting in Cancer i.e. 5th house of the birth chart. The parameters set under transit are fully applicable in this case. The Dash a and transit both were favourable and were in accordance with the principle mentioned under dasha /transit parameters. Finally, the girl decided to join B.A. honours in French from Delhi University. Here, the role of Ketu is very important in natal chart. Ketu is aspecting 5th house, the house of education. The Ketu is the significator of foreign languages, which motivated the girl to join foreign language course though she could join the Administration or Mass Communication course for which also she qualified the entrance examination.

This is the horoscope of a girl, whose academic qualification is B.A. She qualified the entrance examination of P.G. Diploma in Fashion Technology from N.I.F.T in April 1995 to June 1995 and taken admission in the said course.

Now we will analyse the dasha operating during this period. She was running under dasha of Mercury, Anterdasha of Mars and Pratyanterdasha of Venus. The dasha is of Mercury which is the significator of higher education and also is the lagna lord of Chaturvimshamsha, Anterdasha is of Mars, the 5th lord placed in the 5th house in its own sign and Pratyanterdasha is of Venus which is placed in the 5th house and also conjoined with 5th lord. The role of Venus, the Pratyanterdashanath, is very important here. She got admitted in Fashion Technology Course in spite of her background of Arts since Venus is the significator of fashion.

Transit:

During the above period Saturn was transiting in Aquarius and was aspecting the 5th house, 5th lord conjoined with 9th lord. It was also aspecting 9th house at that time. Jupiter (R) was transiting in Scorpio and was aspecting 5th house and 5th lord due to its retrogradation since a retrograde planet also gives its aspect from the previous house in which it is placed.

From the above it is clear that during the above period dasha as well as transit principles were fully applicable, which causes higher education to the native.

7. Timing for rise in Profession

Predicting of Profession and timing of rise in profession is quite a difficult job for astrologers. Numbers of factors are associated with determining the professional field of a native and timing for events for rise in profession. The 10th House is the most important house for profession, however due importance is to be given to 9th house being the house of luck and 2nd house being the house of status. While analysing the profession of the native, we should assess 10th house, alongwith 9th, 11th and 2nd houses. Dashamasha is the concerned divisional chart for the profession. The strength of 10th lord in dashamasha chart i.e. D-10 and position and strength of lagna lord of D-10 should be given equal importance while analysing the profession, otherwise the results can be misleading. The profession of the native will be related to the signification of planets influencing 10th house and 10th lord through placement, conjunction and aspect.

I would like to mention the different professions signified by the different planets for the knowledge of the readers.

The Sun is the significator of Administration, Government and profession relating to practice of medicine.

The Moon signifies profession related to hospitality and public relations.

Mars signifies the armed forces, police, entrepreneurship.

Mercury signifies finance, structural designing, writing and Astrology.

Jupiter signifies education, legal profession, consultants, spirituality related profession and financial management.

Venus signifies TV and Film Industry, life saving drugs, financial advisor, music, dealing in luxurious items.

Saturn signifies industries, service, dealing with labour, industrial workers and leadership for politician.

Birth chart only indicate the professional field of the native, the timing of events are indicated by Dasha of planets operating during a particular period.

For determining timing of rise in profession, following parameters are to be evaluated.

The events related to profession, rise in profession will take place in the dasha of following planets. The results will be according to the signification of planets whose dasha is in operation.

Dasha Parameters

1. Dasha of 10th lord of Birth Chart.
2. Dasha of the Dispositor of 10th lord
3. Dasha of Lagna Lord of Dashamsha.
4. Dasha of planets aspecting 10th house, 10th lord, planets conjoined with 10th lord and planets placed in 10th house. Planets aspecting or conjoined with dispositor of 10th lord.
5. Dasha of 7th lord, since it is alternative house of profession being 10th from 10th house.

Transit Parameters

During dasha of planets associated with above parameters the Saturn and Jupiter must make contact by way of conjunction or aspect with the two conditions out of four mentioned below :

1. 10th house,
2. 10th lord,
3. 7th house,
4. 7th lord from Lagna or Moon

If Dasha parameters and Transit parameters are satisfied, the native will be able to achieve success and rise in profession. The results will be in accordance with the strength of the planets in birth chart and divisional charts. If the planet is strong, it will give good results and if weak or afflicted, bad results will be experienced.

The above mentioned horoscope is of a Govt. servant who joined Government service on 31-05-1973 as a Lower Division Clerk and was promoted to the post of Accounts Officer. The native was appointed on 31-05-1973, promoted as a U.D.C on 26-11-1979 and as a Accounts Officer after qualifying the departmental examination on 21-01-1987. The table below shows the dasha running at the time of appointment and promotion and transit of Saturn and transit on the date of event.

Date of Event	Dasha Running	Transit of Saturn	Transit of Jupiter
31:05:1973	Jup/Saturn/Jupiter	Taurus	Capricorn (r)
26:11:1979	Jupiter/Sun/Mer	Virgo	Leo
21:01:1987	Saturn/Saturn/Rahu	Scorpio	Aquarius

On the date of his appointment in Government department, the native was running under dasha of Jupiter which is the dispositor of 10th lord Mars, Anterdasha was of Saturn which is aspecting 10th house by its 3rd aspect, anterdasha is of Jupiter which is dispositor of 10th lord Mars.

The Pratyanter dasha was of Rahu whose dispositor Saturn was aspecting 10th house.

In all the three events, dashas of planets are associated with the dasha parameters stated above. Now we will examine the principles mentioned below under Transit.

On 31-05-1973 Saturn was transiting in Taurus which was in 10th house of the birth chart and retrograde Jupiter was transiting in Capricorn from where it was aspecting 7th house, the alternative house of profession. On 26-11-1979, Saturn was transiting in over Virgo and was aspecting 10th house of the birth chart and Jupiter was transiting in Leo which is 7th house, the alternative house of profession.

8. How to Identify Timing of Marriage

The Marriage is the institution for the continuance of mankind. Marriage is the most important event in the life of a man/woman. The 7th house of a Horoscope signifies marriage as already explained under chapter of signification of houses. Venus is the significator for Marriage. In addition to Venus, Rahu is the natural significator of Marriage. The good position of 7th house, 7th Lord and Venus the natural significator of marriage and life, provides the native with happy conjugal life. If the 7th house, 7th lord and Venus are weak or afflicted in the Horoscope due to debilitation/combustion, ill placement in 6th, 8th, or 12th house, debilitated in Navamsha, afflicted by conjunction of malefic planets or aspected by them it makes the married life troublesome and if there is heavy affiliation of 7th house, 7th lord, Venus and 7th house from the Venus, it results in denial of marriage.

Therefore we should first examine the promise in the horoscope and should see whether there is a provision of early and happy marriage or there is any delay in it, marital discord or denial of marriage.

After examining the promise in the horoscope, the next question crops up when the marriage will take place. Generally, the time of marriage depends upon the nature of 7th lord. If Mercury is the 7th lord, there may be early marriage i.e. between 18 to 20 years, If Mars is the 7th lord, marriage will take place: between 20 to 21, if Venus is the 7th lord, it will take place between 20 to 22. If it is Moon 22-to 23, if it is Jupiter, at the age of 24, If it is sun it is at the age of 26 and if it is Saturn, at the age of 28 years. These ages are based on. natural age of the planets .

One question is generally asked by the people, what will be the nature of their life partner. This question can be replied easily. We should note down which sign is falling in 7th house of the native.

If there is Aries, Leo or Sagittarius in the 7th house of the native, his/her life partner may be fiery in nature, arrogant, courageous, impatient and having leadership qualities.

If Taurus, Virgo or Capricorn signs are falling in the 7th house the life partner of the native may be pleasure seeker, having analytical approach and may be fully involved in materialistic pursuits.

If Gemini, Libra and Aquarius signs are falling in the 7th house, the life partner of the native may be of communicable approach, ambitious, imitative nature, diplomat in nature and full of tactfulness.

If Cancer, Scorpio and Pisces are falling in the 7th house, the life partner of the native may be of volatile nature, peace loving and moody.

The horoscope of the native will indicate the promises of marriage in life such as early marriage, happy marriage, delayed marriage, marital discord or denial of marriage but timing of marriage will be indicated by the dasha and transit of planets operating at particular time.

To determine the timing of marriage, following parameters are to be evaluated. The marriage can take place in the dasha of the following planets.

Dasha Parameters

1. Dasha of 7th Lord.
2. Dasha of Lagna Lord being 7th house from the 7th house.
3. The Dasha of Lagna Lord of Navamsh Chart.
4. The dasha of Dispositor of 7th lord.
5. The dasha of Venus or Rahu, the natural marriage giver.
6. Dasha of planets placed in 7th house, conjoined with 7th lord and aspecting 7th lord.
7. Dasha of 7th lord from Moon, Venus and planets posted in 7th house from Moon or Venus.

During dasha of planets mentioned above Saturn and Jupiter will make contact with two conditions out of the conditions mentioned below:

7th house, 7th lord, Lagna, Lagna Lord from Lagna or Moon.

If dasha parameters and transit parameters are favourable and are covered by the parameters set above, the marriage will take place during that period.

9. Timing of Birth of Children

The Institution of Marriage is sacred. It is meant to facilitate the Graheya and Saruta dharmas. According to the Hindu Shastras the son is one who saves the parents from hell. The 5th House is generally considered as the indicator of Progeny and Education. The primary concern of 5th house is progeny and most of the astrological predictions based on this house is about children one begets. The alternative house of children is 9th being 5th house from the 5th. The Saptamsha is the Divisional Chart which gives more clues about children. It has to be simply read as Rashi Chart. While reading the divisional chart, importance is to be given to the Lagna and Lagna Lord of the Saptamsha and concerned house i.e. 5th house and its lord in the Saptamsha. Speculator predictions can be given in cases where the Birth Chart and Divisional Chart i.e. Saptamsha point to the same thing.

Suppose, in Rashi Chart the 5th lord is in the 8th house and 5th lord of the saptamsha is also in the 8th house of the saptamsha. Here, we can predict that possibility of children is very less.

In astrology, Jupiter is said to be the significator of children, particularly of male Child. We must give equal importance to Jupiter in addition to the 5th lord, while analysing matter relating to the children.

The people are generally anxious to know the sex of their child, number of male or female child. I am describing below astrological combinations which give male or female child.

1. If 5th Lord is in female sign, female Navamsa and in constellation of female nakshatra, there may be girls more than boys to the parents.
2. If above criteria applies to the male sign, male navamsha , n male nakshatra, birth of male children more than female is indicated.'
3. If 5th lord is in dual sign, dual navamsha, birth of twins is indicated.
4. If the 5th lord occupies the first six houses counted from lagna, early birth of children is indicated and from 7th to 12th houses, the number of children will be on lesser side.

There are certain astrological combinations, which lead to denial of children. I am describing these combinations below :

1. Rahu in 5th house owned by Mars or in Virgo.
2. Rahu conjoined with 5th lord.
3. Rahu in 5th house aspected by Mars.
4. Rahu in Lagna and Mars and Jupiter in 5th house.
5. Rahu conjoined with Mercury in 5th house.
6. Mars in 2nd house and Saturn in 3rd.

Now I will describe the effects of various planets in 5th house in respect of children.

Sun Troublesome birth of child. Well aspected Sun grants gains from the children.

Moon Famous or notorious child. Affliction to the Moon from 8th or 12th house indicates death of children.

Mercury Parents remain worried about their children.

Mars Troublesome birth of children. If Mars afflicted by Jupiter or Venus, children may be destroyed.

Jupiter Obedient and dutiful children.

Venus Artistic or musical minded children possible.

Saturn Delay in birth of children. If afflicted by Mars or Venus, children will not have sympathy with parents.

The astrological evaluation of 5th house, 5th Lord. Jupiter and 5th house from Jupiter indicates the promise of birth of children favourable or unfavourable but timing of birth of children is indicated by the dasha of the planets in operation during a particular period in correlation with transit of planets.

For determining the time of events for birth of children, we have to analyse the dasha operating, The birth of children will take place in the dasha of the following planets.

1. The Dasha of 5th Lord.
2. Dispositor of 5th Lord.
3. Dasha of Lagna lord of Saptamsha .
4. The Dasha of Jupiter, the natural significator,.
5. Dasha of 5th lord from Jupiter /Moon, the planet placed in 5th house from Moon or Jupiter.
6. Dasha of Dispositor of 5th Lord.
7. Dasha of planets placed in 5th house, conjoined with 5th lord and planets aspecting the 5th lord.

Transit Parameters

During dasha of planets associated with above mentioned parameters the Saturn and Jupiter must make contact with two conditions out of four mentioned below through conjunction or aspect.

1. 5th House
2. 5th Lord
3. 9th house
4. 9th lord from Lagna or Moon.

If Dasha parameters and transit parameters are satisfactory in accordance with the above parameter the birth of children will take place during that particular period. Now I will discuss various case studies to show how the above principles are applicable in finding the timing of birth of children.

10. Timing of Foreign Travels

With globalization of Trade/Education and fast means of transportation, one can visit foreign countries in couple of days. People have become interested in visiting foreign countries for various reasons such as education, business, pleasure trips, marriage, diplomatic assignments etc.

The 7th, 9th, 8th and 12th houses are the houses connected with foreign travels. Rahu is the significator for foreign visits. Purpose of foreign visit can be scertained with the help of house lord connection / relationship with 12th house or 12th lord. If 5th lord is associated with 12th house and 12th lord, it indicates foreign visit for education. If it is 10th or 7th lord then it is connected with profession and marriage respectively. If it is 4th house or 4th lord it indicates residence in the foreign countries. If 9th house or 9th lord is having connection with 12th house or 12th lord the purposed visit may be for attending seminars or religious visit.

The Rahu is the most important planet for foreign trip if it is posted in 12th, 9th, 8th or 7th house and 4th house indicates foreign trip during its Dasha or Anterdasha, Another important house for foreign visit/settlement is 4th house since it is significator of residence and motherland of the native. If 4th house and 4th lord are connected with 12th house and 12th lord, it indicates residence in the foreign country. If 4th lord is in 12th house in a moveable sign it indicates frequent visit to foreign countries and residing there for short periods. But if 4th lord is in 12th house in a fixed sign it indicates permanent residence in a foreign country.

I am describing astrological combinations which give permanent residence in foreign counties. These combinations have been tested on various horoscopes of those who are permanently settled in foreign countries.

1. 4th house/ 4th Lord from Lagna are afflicted by malefic planets by way of placement, aspect or 4th house is hemmed in between two natural malefic planets.
2. 4th house/ 4th lord from Moon are also afflicted in the same manner as stated above.
3. 4th house/ 4th Lord from Padalagna afflicted in the same manner as stated above.
4. 4th house/ 4th Lord of Navansh afflicted in the same manner by malefic planets.

If all the combinations mentioned above are available in the horoscope of a native, he may have permanent settlement in a foreign country.

It is essential to mention as to how Padalagna should be worked out. See where the Lagna lord is located from Lagna, count the distance of house traveled by Lagna lord. Then count the same distance from placement of Lagnalord, the house so arrived will be house of Padlagna and lord of that house will be the lord of Padalagna.

How to calculate Upapad

See where-12th lord is located from 12th house. Then count the same distance from placement of 12th lord and the house so arrived will be house of Upapad and lord of that house will be the lord of Upapad.

After ascertaining the promise of foreign visit in a horoscope, the next question is when foreign visit will take place. Foreign visit is possible in the Dasha of following planets.

Dasha Parameters:

- 1 Dasha of 12th Lord from Lagna or Moon.
2. Dash a of the Dispositor of 12th lord.
3. Dasha of lord of Upapad house.
4. Dash a of 5th, 7th, 9th and 10th lord. If these lords are having any connection with 12th house or 12th lord by way of P.A.C.
5. Dasha of planets placed in 12th house, conjoined with 12th lord and aspected by 12th lord.
6. Dasha of planets placed in 12th house from Moon or Upapad.

Important Timing of settlement in foreign countries will take place in the Dash a of 4th lord. Planets placed in 4th house, if these planets are having relationship with 12th house or 12th lord.

Transit Parameters :

During Dasha of above mentioned planets, Saturn and Jupiter must make contact in two conditions out of the conditions laid down below.

1. 12th house
2. 12th lord
3. Upapad,
4. 12th house or 12th lord from Upapad,
5. 12th house or 12th lord from Moon.

If dasha and transit parameters are favourable as stated above, the native will visit foreign countries. Now, I will be describing the case studies to show applicability of Dasha parameter and transit parameter stated above.

Case Study -1 D.O.B.:- 13-12-1956, T.O.B.:- 23:10, P.O.B.:- DELHI

Mars	Moon	Ket Sat-T	Sat-T

The Native visited foreign countries two times as per my knowledge. First visit took place on 1 -09-2001 to Mauritius in connection with astrological conference and second trip took place on 3-09-2002 to U.S.A. as a pleasure trip.

On 3-09-2002 the native was running under Dasha of Mars/Venus/Saturn. The MD lord Mars is the dispositor of 12th lord, AD Lord Venus is aspected by 12th lord and Pratyantar dashanath Saturn is conjoined with Rahu which is the significator of foreign trip, Saturn was transiting in Gemini which is 12th house from Moon and Jupiter was transiting in cancer which is 12th house from Lagna.

Thus Dasha of planets and transit of Saturn and Jupiter are as per principles stated under Dasha parameters and transit parameters.

On 1-09-2001 the native was running under Dasha of Mars/Ketu/Saturn. Mars is the dispositor of 12th lord, ketu is aspected by Upapad lord Saturn. Anterdashanath Saturn is conjoined with Rahu, the significator of foreign trip. Saturn was transiting in Taurus objectives 12th house and Jupiter was transiting in Gemini which is mercury placed in 12th house from Upapad. Thus Dasha and transit parameters are fully applicable to the visit also.

This native visited Mauritius in connection with an astrological conference on 1-09-2002. Rahu in his 12th house of Lagna indicate foreign trip. The native is working in a Government Department where there was no chance of visiting a foreign country. He has the knowledge of Astrology which became instrumental of his foreign trip since it was promised in his horoscope due to placement of Rahu in 12th house from Lagna. On 1-09-2001 the native was running under the Dasha of Saturn/Jupiter/Saturn. The Mahadashanath Saturn is the lord of 12th house placed in 8th house which is the house of overseas trips. The Anterdashanath Jupiter is placed in 12th house from the house of Upapad, The Pratyanterdasha was of Saturn having qualification of lord of 12th house. On 1-09-2001 Saturn was transiting in Taurus, the Upapad house. Jupiter was transiting in Gemini from where it was aspecting 12th lord from the Moon. Thus in this case also, all the principles of dasha and transit are applicable.

Foreign Settlement Abroad:

Astrological combinations for foreign settlement have already been explained. Now, we will discuss the case studies of foreign settlement.

Case Study -1 - D.O.B.:- 19-11-1947, T.O.B.:- 15:30, P.O.B.:- JULLUNDER

	Asc	Rah		Sat	Asc Mars		Moon

The above mentioned horoscope is of a boy who went to U.S.A. for higher studies. After completing his studies he got married in U.S.A. and settled there. In Birth chart the 5th lord Sun is conjoined with 12th lord in 8th house. Association of 5th lord with lord of 12th house has blessed the native with higher studies in a foreign country. The 7th lord Venus is also placed in 8th house the house of overseas conjoined with 12th lord Jupiter. Hence the native got married in the foreign country and settled there. The Lagna is Aries. Fourth house of the birth chart is occupied by Saturn, a natural malefic planet.

In Navamsh Chart the 4th house is occupied by malefic planet Sun and it is also aspected by Mars which is also malefic. The Padlagna in the horoscope is Sagittarius and the 4th lord is in 12th house from Padlagna and in 8th house from Lagna both dusthan hence afflicted. From the above analysis it is observed that all the astrological combinations responsible for foreign settlement (D-1 & D-9) exist in the above case study.

Case Study-2 D.O.B.:- 21-01-1950, T.O.B.:- 21:25, P.O.B.:- HARIDWAR, INDIA.

The above mentioned horoscope is of a man who is now settled in U.S.A. after marriage. In his horoscope the 7th lord Saturn is aspected by 12th lord Moon from 7th house, the house of marriage which clearly indicates marriage in a foreign country. Now, we will examine the astrological combination of foreign settlement. The 4th lord from Lagna Mars is in Rahu/Ketu axis, hence afflicted. The 4th house from Moon is aspected by Saturn the natural malefic planet, hence 4th house from Moon is also afflicted. The Padlagna in the horoscope is Gemini and in 4th house from Padlagna Ketu and Mars are posted hence they are afflicted. The 4th lord of Navamsh Saturn is in Rahu/Ketu axis, hence it is also afflicted by malefic planets. All the combinations of foreign settlement exist in this horoscope resulting in foreign settlement of the native. In all the case studies the point to be noted is that if 4th house or 4th lord is in Rahu/Ketu axis, it enhances the chances of the foreign settlement.

11. Timing of Accruing Land / Property / Vehicle/ Domestic Valuables

The 4th house is the significator of land, property and vehicle as already explained under chapter of signification of houses. The Mars is the significator of land and property. Venus is the significator of vehicle and other household valuables. The Chaturmasa D4 is the concerned divisional chart for evaluating land and property, vehicles, luxurious valuables. The Chaturmasa should be read as Rashi chart.

Importance should be given to Lagna of Chaturmasa and 4th house from Chaturmasa. The position strength of Mars and Venus is also to be examined in D-4. The placement of 4th lord of birth chart is of utmost importance. If Lagna of D-4 is strong and Lagnalord is placed in a benefic house, the native may be able to acquire property, vehicle and other valuables during his life tenure. If lagna and Lagnalord of D-4 is weak due to ill placement i.e. in 6th, 8th or 12th house under influence of malefic planets through PAC, the native will not be able to acquire fixed assets or vehicle etc.

For examining land and property, following factors are required to be examined.

1. 4th house.
2. 4th lord.
3. Strength of Mars in Birth chart and in D-4.
4. 4th house from Mars.
5. Lagnalord of D-4.
6. 4th house of D-4.
7. Strength of 4th lord in D-4.

If above factors are strong, in benefic places, having aspect of benefic planets, the native will have land property in abundance but if above factors are weak in dusthan 6th, 8th, and 12th houses, under influence of malefic planets, the native will not have land and property.

For examination of vehicles/domestic valuables, following factors are required to be examined

1. 4th house.
2. 4th lord.
3. Venus in D-1 and D-4.
4. 4th house from Venus.
5. Lagnalord of D-4.
6. 4th house of D-4.
7. Strength of 4th lord in D-4.

If above factors are strong, in benefic houses, well aspected or conjoined with benefic planets, the native may own vehicles and other domestic valuables. In case of weakness of these factors, the native may not be able to enjoy comforts of vehicles and other domestic valuables.

After examination of D-1 and D-4, which indicate promise of acquiring land / property, vehicles and domestic valuables, the question arises as to when the native will be blessed with the objects said above. Timing of acquiring will be indicated by Dasha of Planets under operation.

The native can acquire land/property under the Dashas of following planets.

1. Dasha of 4th lord.
2. Dasha of dispositor of 4th lord.
3. Dasha of planets conjoined, aspecting 4th house or 4th lord.
4. Dasha of Mars, the significator of land and property.
5. Dasha of 4th lord from Mars.
6. Dasha of planets placed in 4th house.
7. Dasha of Lagnalord of D-4.

Dasha for acquiring vehicles and domestic valuables.

1. Dasha of Venus, the significator of vehicles and other luxurious domestic valuables.
2. 4th lord from Venus.
3. Dasha of Dispositor of Venus.
4. Dasha of Lagnalord of D-4.
5. Dasha of planets in 4th house, conjoined with 4th lord, Venus and aspecting 4th lord, 4th house and Venus.

Transit Parameters:

During the dashas of above mentioned planets, Saturn and Jupiter should make contact by conjunction or aspect in two conditions out of 4 mentioned below:

1. 4th house
2. 4th lord
3. 7th house 7th lord from Lagna or Moon.

Now, we will discuss the case studies to show how these parameters are applicable to identify the timing of events relating to property/land and vehicles.

The above horoscope is of a native whose educational qualification is simply Hr. Secondary. The net worth of his land /property and Vehicles etc. are in Carore of Rupees. This horoscope is ample proof as to how the planets blessed the native with land/property and vehicles etc. during their dashas as per promise in the birth chart and Chaturmasa, the concerned divisional chart, for property/ land, vehicles and domestic comforts. In Birth chart the 4th lord Mars is placed in 2nd house, the house of status along with 11th and 2nd lord Mercury which is exalted in the 2nd house, the house of status and wealth. The Lagna lord and 5th lord Jupiter is also placed in 2nd house. A very good Dhanayoga exists in the horoscope.

The native is personally known to me, therefore I am aware of the fact that whenever he has made investment in property the return has been manifold. Now, I will throw light on position of Lagna lord of D-4. The Lagna lord of D-4 is Saturn which is posted in 4th house of D-4, the house of property/vehicles etc.

In the sign of friend Venus from where it is aspecting Lagna of D-4, the quite good position. The native has made most of the properties during the Dasha of Jupiter which is 5th lord of birth chart conjoined with 4th lord Mars having qualifications of 4th lord as well as the significator of land/property.

The native acquired two properties during 16-10-2002to 26-10-2002-first a commercial property in Ansa I Plaza in Greater Naida and 2nd-he was allotted an H.I.G Flat in Vasant Kunj by D.D.A. in recent draw of lots.

16 10 2002 to 31 10 2002

The native was running under the Dasha of Saturn/Mercury/Venus. Saturn is placed in 4th house of D-1. It is also the lagna lord of D-4. Mercury is conjoined with Mars the 4th lord of D-1 and significator of land and property. Venus is the 4th lord of D-4.

Saturn is transiting in Gemini and is aspecting 4th lord Mars due to retrogradation. Jupiter is transiting in Cancer and aspecting the 4th house of birth chart. From above it is observed that Dasha parameters and transit parameter are fully applicable in this case.

The native purchased an Esteem car in May 1996. During this period the native was running under Dasha of Jupiter/Mars/Venus. The Dashanath Jupiter is conjoined with 4th lord Mars in 2nd house the house of status. Mars is 4th lord and Pratyantar dashanath Venus is the significator of Vehicle. Saturn was transiting in Pisces in May 1996 and it was aspecting 4th lord Mars. Jupiter was transiting in Sagittarius from where it was aspecting.

In the above horoscope, the 4th house of birth chart is aspected by its lord Venus. The lagna lord of D-4 is also aspecting Lagna of D-4, quite a good position. The native acquired a house built-up on 100sq. yards in a posh colony on 16-10-1992.

The native was running under Dasha of Saturn/Venus/Rahu. The Dashanath Saturn is 4th lord from Moon. The Anterdashanath Venus is 4th lord of D 1 and Lagna lord of D-4 aspecting 4th house of D-1 and Lagna of D-4 -quite good a position. The Pratyantar dashanath Rahu is aspecting 4th house of D-1

Saturn was transiting in Capricorn on 16-10-1992 and it was aspecting the Sun, the 7th lord which is lord of 7th house i.e. 4th from 4th house. Jupiter was transiting in Virgo, being conjoined with Saturn the 4th lord from Moon.

The native purchased a Maruti-800 car in January 1999.

The native was running under the dasha of Saturn/Rahu/Jupiter. The Dashanath Saturn is 4th lord from Moon whereas the anterdashanath Rahu is aspecting 4th house of birth chart and Pratyanterdashanath Jupiter is aspecting Venus, the 4th lord since Jupiter is (R).

On Jan 1999 Saturn was transiting in Aries and was aspecting the Sun, the lord of 7th house which is 4th from the 4th house. Jupiter was transiting in Aquarius from where it was aspecting the 7th house of D 1 which is 7th house i.e. 4th house from the 4th house.

12. Timing of Birth of Younger Brothers and Sisters

The third house is the significator of younger siblings, courage, friends, etc. It is also called Sahodara Bhava. Mars is the significator of younger brothers and sisters. Dreshkan is the concerned divisional chart for younger siblings. If 3rd house and 3rd lord are well placed and well aspected by a benefic planet, the native is blessed with younger siblings. The position and strength of 3rd lord in D-3 should also be assessed. Equal importance should be given to position of Lagna and Lagna lord of D-3 and placement of 3rd lord of D-1 in D-3. The gender of the younger brother or sister can be determined from the Birth chart.

1. If there is a male sign in 3rd house, 3rd Lord is placed in the male sign male Navamsha and is in constellation of Male Nakshatra, there may be more brothers in comparison to younger sisters.
2. If there is a female sign in 3rd house, the 3rd lord in the female sign female Navamsha, in the constellation of Female Nakshatra, the number of sisters will be more than the brothers.

To judge the promise of younger siblings, we should analyse the following.

1. 3rd house.
2. 3rd Lord
3. Mars, the significator of younger siblings.
4. Position of lagna and Lagna lord of D-3.
5. The placement of 3rd lord of D-1 in D-3.

If above factors, planets, houses are under the influence of benefic planets. The native will be blessed with younger siblings and will have happiness from them. If these factors are under the influence of malefic planets due to PAC, the native will be deprived off from younger siblings as well as happiness from them. The Birth Chart and concerned Divisional Chart D-3 indicate promise of younger siblings, positive or negative depending upon the strength of 3rd lord, 3rd house and Mars, the significator of younger siblings.

For determining the time of birth of younger siblings, we should study the running Dasha pattern. Birth of younger siblings will take place during the Dasha of following planets.

1. Dasha of 3rd Lord from Lagna or Moon.
2. Dasha of dispositor of 3rd lord
3. Dasha of 5th Lord being 3rd from 3rd house.
4. Dasha of Lagna lord of D-3, the concerned Divisional Chart.
5. Dasha of Mars, the significator of younger siblings.
6. Dasha of planets placed in 3rd house, aspecting 3rd house and conjoined with aspecting 3rd lord.

Transit parameter :

During the Dasha of above mentioned planets, Saturn/Jupiter must make contact in two conditions given below through PAC

1. 3rd house from Lagna or Moon
2. 3rd lord from Lagna or Moon.
3. 5th house from Lagna or Moon.
4. 5th lord from Lagna or Moon.

Now, we will discuss the case studies to show as to how these parameters are applicable in indicating timing of birth of younger siblings.

The Anterdasha was of Moon, the 5th lord and the lord of 3rd house from 3rd house. The Pratyanterdasha was of Rahu, again the planet posted in 3rd house of birth chart.

This girl was blessed with younger brother on 30-11-1988.

On 30-11-1988 she was running under the Dasha of Jupiter/Mercury/ Mars.

Now, we will examine the operative Dasha. The Dasha was of Jupiter which was aspecting 3rd lord of birth chart i.e. Mercury. The Anterdasha was of Mercury, the 3rd lord of birth chart. The Pratyantar dasha was of Mars the significator of younger siblings.

On 30-11-1988 , Jupiter was transiting in Taurus from where it was aspecting 5th house of birth chart, the 3rd house from 3rd house. Saturn was transiting in Sagittarius i.e. in 5th house of birthchart again, the 3rd house from 3rd house.

From above case studies it is clear that the Dasha parameters and transiting parameters laid down are fully applicable and help us a lot in deciding the timing of birth of younger brothers and sisters.
