Timing of Marriage *By Transits and* *Jaimini Astrology*

By

Gautam Dave, India

Editor: Maurício Avila, Brazil

Predicting timing of events is a challenge for any astrologer. It's a general practice to look at Vimshottari dasa of 7H Lord and planets connect to 7H, gochar (transit) of Jupiter in connection with 7H and its Lord. But it's observed by many astrologers that you cannot have accuracy of more than 60% using these techniques. When I have started analysis of charts and timing of events using the method that will be presented, I found it working very well in more than 90% of the charts.

Let's analyze the rules one by one. First we will study how through Jaimini system and gochar of Saturn/Mars and Jupiter are used to make predictions about the time of fructification of the marriage event.

Rules for predicting marriage

Broad Rule: Transit of **Saturn, Mars and Jupiter** connected with **7H, AL and UL** or its **Lords**. These conditions are **MANDATORY**. AL, UL and its Lords should be noted as well.

Rule 1: Transit **Saturn** should aspect UL or its Lord, or be transiting on UL or its trines. During this transit Saturn should aspect his natal position or Jupiter/Mars or both.

Rule 2: Transit **Mars** should have connection with the factors mentioned in *Rule 1*.

Rule 3: Transit **Jupiter** should aspect AL or its Lord as well as 7H/7H Lord.

Rule 4: **Darakaraka** will be connected by one or many ways with the houses and lords indicated in the 3 rules above.

Rule 5: **Chara Dasa** running at the moment of marriage should be connected with the above parameters.

Rule 6: **Chara Dasa rashi Maha dasa (MD) and Antar Dasha (AD)** should receive argala from Darakaraka and/or their respective lords (MD and AD lords).

Lagna is *Simha*, AL is *Vrishchika*, UL is *Mesha* and DK is Venus. Transit Saturn was in *Kanya* in the 2H aspecting AL and UL Lord Mars by its 3H aspect. The natal 7L Saturn was also aspecting transit Saturn at the time of the event. Hence, UL, AL and their lords were associated with natal and transit Saturn. Transit Mars was in *Karka*, making an exactly degree conjunction with natal 7L Saturn, it is also aspecting the 7H from Lagna by its 8H aspect. Transit Jupiter was in the last degrees of *Makara* just about to ingress into the 7H (*Kumbha*), in this position (*Kumbha*) Jupiter was being aspected by transiting Mars (AL and UL lord) via 4H and 8H aspects, respectively. Hence, a powerful connection of all required parameters is observed in this particular example.

Chara Dasa running was **Makara/Mithuna**. Darakaraka is placed in MD *rashi* receiving an aspect from UL Lagna Lord (Mars). AD *rashi* was also aspected by Mars at that time (8H *drishti*). Transit Saturn influences AD *rashi* by its 10H aspect. Transit Mars and Jupiter joins with MD and AD *rashis*.

Transit Saturn was in *Kanya* aspecting AL and UL by its 10H aspect and conjunct with the dispositor of these *Arudhas* (Mercury) in the 7H from Lagna. In this way, Saturn is activating 7H and UL. Transit Mars was in *Karka* getting aspected by transit Jupiter (7H aspect). Hence, mutual aspects were giving *drishtis* to 7H, UL and AL Lord Mercury (9H aspect).

Chara dasa running at the event was **Simha/Kanya**. MD Lord (Sun) is placed in AD *rashi Kanya* with UL Lord Mercury, which is also the 7H from Lagna. Transit Saturn was in *Kanya* at the time of marriage and, as stated above, Jupiter and Mars were also connected with the important parameters for marriage. AD *rashi* also receives argala from MD *rashi* from its 2H. The rules proposed are working in this chart.
