

Transit of Rahu-Ketu & the Fortunes of Politicians

I had the good fortune of learning many simple predictive techniques from veteran astrologer Shri C S Patel. One simple technique is based purely on the transit results of Rahu and Ketu which invariably hold good in the case of politicians.

We know that in the Zodiac the planets Sun, Mercury and Venus are placed near to each other. The angular distance between Sun and Mercury may vary up to 28 degrees and the angular distance between Sun and Venus may vary up to 48 degrees. Thus the maximum distance between Mercury and Venus will be about 76 degrees. This arc of the Zodiac which includes Sun, Venus and Mercury, in a natal chart, when transited by Rahu, gives highly beneficial results. For the purpose of this article, I will call this arc comprising of Sun, Mercury and Venus as “Sun’s Group”. It is also seen that when Ketu transits the natal Sun, Mercury and Venus, some major setback happens. This predictive technique is helpful in giving snapshot prediction based on transit of Rahu and Ketu alone and does not take into account the Vimsottari dasa or the Ashtaka Varga chart.

Even in case the time of birth is unknown and date of birth is known, this technique will be useful to give snapshot prediction.

I have tested these principles in the horoscopes of a few politicians and my observations are as under:

1. Mahatma Gandhi: Date of birth – 2.10.1869 at 8.37 a.m. (IST), 21° N 37′; 69° E 49′ Lahiri Ayanamsa 22° 02′. Asc – 192° 26′, Sun – 166° 56′, Mercury – 191° 46′, Venus - 204° 26′.

Observations: During 1917, 1918 and 1919 when transit Rahu passed over his natal Sun, Mercury and Venus (i.e. Sun’s Group) he was chosen by the Congress Party to give a boost to the political movement and remained undisputed leader of the Congress Party since then. During January 1948 transit Ketu was very close to his Natal Venus, he was assassinated.

2. Jai Prakash Narain: Date of Birth 11.10.1902. Time of Birth – 00:38 hrs. at 26° N 47′; 83° E 32′. Ayanamsa: 22° 30′. Asc – 103° 55′; Sun – 174° 53′; Mercury - 191° 19′; Venus 161° 32′.

Observations: During 1976-77 when transit Rahu passed over his natal Mercury and was in the Sun’s Group, he inspired and got the entire opposition unified under one party called Janata Party which resulted in the formation of the first Government by opposition Janata Party at the Centre in India. This was considered as near miracle at that time.

3. Margaret Thatcher: Born on 13.10.1925 at 9 a.m. (GMT) at 52° N 54′; 0° W 38′. Ayanamsa - 22° 49′. Asc – 202° 29′; Sun – 176° 42′; Mercury – 180° 59′; Venus 219° 16′.

Observations: During years 1977, 1978, 1979 and 1980 when transit Rahu passed over her natal Venus, natal Mercury and natal Sun, she was chosen by the Conservative Party as the

leader of the opposition which eventually enabled her to become the first woman Prime Minister of United Kingdom.

4. Harry S Truman: Born on 8.5.1884 at 4.26 p.m. (LMT) AT 39° N $07'$ and 94° W $30'$. Ayanamsa – $22^{\circ} 15'$. Asc – $173^{\circ} 10'$; Sun $26^{\circ} 26'$; Mercury – $39^{\circ} 01'$; Venus – $71^{\circ} 44'$.

Observations: During 1945 when Rahu was transiting his natal Venus he became the President of U.S.A. and again in 1948 when transit Rahu passed over natal Sun he was re-elected as President of U.S.A.

5. Lal Bahadur Shastri: Born on 9.10.1904 at 11.07 a.m. at 25° N $18'$; 83° E $00'$. Ayanamsa – $22^{\circ} 32'$. Asc – $240^{\circ} 59'$; Sun $172^{\circ} 59'$; Mercury $158^{\circ} 44'$; Venus – $197^{\circ} 48'$.

Observations: During 1956, 1957, 1958 and 1959 when Rahu passed over his natal Venus, Sun and Mercury Sun's Group, he was elected to Parliament and became an important Minister in the Central Government which eventually enabled him to become the Prime Minister in 1964. During January 1966, when transit Ketu was moving close to natal Venus he did in office.

6. Franklin D Roosevelt: Born on 30.1.1882 at 8 p.m. (LMT). 40° N $45'$; 73° W $59'$. Ayanamsa – $22^{\circ} 13'$. Asc – $142^{\circ} 52'$; Sun – $288^{\circ} 54'$; Mercury – $304^{\circ} 57'$; Venus – $283^{\circ} 49'$.

Observations: He became the President of U.S.A. in 1933 when transit Rahu was moving towards natal Mercury and remained as President for 3 terms i.e. 12 years. Reader may note that transit Rahu moved over Sun's Group during most of his presidential term.

7. Dwight D Eisenhower: Born on 14.10.1890 at 5.15 p.m. (LMT) 37° N $45'$; 96° W $32'$. Ayanamsa – $22^{\circ} 20'$. Asc $346^{\circ} 57'$; Sun – $179^{\circ} 14'$; Mercury $161^{\circ} 10'$; Venus – $223^{\circ} 46'$.

Observations: During the war years in 1939 and 1940, Rahu was transiting over his natal Sun and he had accelerated promotions and by 1943 held the rank of Supreme Commander of Allied forces in Europe. Again when Rahu transited Sun's Group during 1953-61 he became the President of U.S.A.

8. Mikhail Gorbachev: Born on 2.3.1931 at 45° N $02'$; 41° E $58'$. Birth time not known, assumed birth time 8.09 a.m. Moscow Time. Ayanamsa – $22^{\circ} 54'$. Asc – $352^{\circ} 51'$; Sun – $317^{\circ} 47'$; Mercury $306^{\circ} 14'$; Venus – $272^{\circ} 56'$.

Observations: Rahu was nearing his natal Sun during October 1988, he was elected as President of U.S.S.R. with wide powers unparalleled in the history of U.S.S.R.

9. Rajiv Gandhi: Born on 20.8.1944 at 8.50 a.m. (corrected from wartime), Bombay 18° N $55'$; 72° E $80'$. Ayanamsa $23^{\circ} 05'$. Asc $158^{\circ} 02'$; Sun $123^{\circ} 54'$; Mercury $148^{\circ} 36'$; Venus $138^{\circ} 45'$.
Observations: In this chart the Sun's Group extends from 123 to 148. Ketu started transiting

natal Mercury at 148 around April 1988. Thereafter Ketu continues to move over the Sun's Group and now Ketu is very close to natal Venus. Already several problems like Bofors issue, Defamation bill etc., are being faced by Rajiv's Government. Ketu will transit over natal Sun by July 1989 and will get out of the Sun's Group by August 1989. It will be therefore prudent to conclude that better times are likely after September 1989 for Rajiv's Government. OM TATSAT.
